Summary

Aspiring Data Analyst with hands-on experience in Excel, SQL, Python, and Power BI. Skilled in data cleaning, exploratory data analysis, dashboard development, and transforming raw data into actionable business insights. Seeking opportunities to apply analytical skills in a data-driven environment.

Skills

Programming & Querying: Python, SQL

Data Analysis & Visualization: MS Excel, Power BI

Database: MySQL

AI & Machine Learning: Artificial Intelligence, Machine Learning Fundamentals, Prompt Engineering

Tools: Git, GitHub, VS Code

Analytical Skills: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Descriptive Statistics

Internship

Data Analyst Intern

January 2026 – June 2026

LitsBros Pvt. Ltd, Amravati

Python, SQL, Excel, Power BI

- Collected, cleaned, and transformed data using Excel and SQL.
- Performed Exploratory Data Analysis to identify trends and patterns.
- Created interactive dashboards and reports using Power BI.
- Presented findings through visualizations and reports.

Education

MCA - Master of Computer Application

2026

P.G. Department of Computer Science and Technology H.V.P.M, Amravati

BCA - Bachelor of Computer Applicaion

2024

Shri Shivaji Science College, Amravati

Projects

News Website Traffic Analysis Using Google Analytics Data | *Excel , Power BI*

January 2026 – June 2026

- Cleaned, organized, and processed raw data using Excel by handling missing values, removing duplicates, and ensuring data accuracy for analysis.
- Created a suite of interactive dashboards using Power BI to monitor customer engagement metrics; the tool is now utilized by over 15 marketing team members for real-time campaign analysis and adjustments.
- Built 5+ interactive Power BI dashboards.
- Analyzed website traffic data from Google Analytics by evaluating user engagement, traffic sources, page performance, and visitor behavior to generate actionable insights and support data-driven decision-making.

AI Job Market Trend Forecast | *SQL, Python*

January 2026 – June 2026

- Analyzed AI job market data using SQL and Python to identify hiring trends, in-demand skills, salary patterns, and employment opportunities across different industries and locations.
- Extracted job demand trends and skill requirements using SQL queries.
- Created visualizations to identify hiring patterns and market growth.
- Generated insights on future AI job opportunities and industry trends.

Awards & Certifications

- **Data Analytics Internship Completion Certificate – LitsBros Pvt. Ltd, Amravati(2026):** Training in SQL, Python, Excel, Power BI, and Dashboard Development.
- **Foundation of AI and Machine Learning – Coursera (2026):** Completed coursework covering Artificial Intelligence, Machine Learning fundamentals, neural networks, supervised and unsupervised learning.
- **Generative AI Mastermind – OutSkill (2026):** Completed training in AI concepts, prompt engineering, AI productivity, and practical AI applications.
- **Artificial Intelligence Tools – Mind Luster (2026):** Learned to use modern AI tools for content creation, automation, productivity, and real-world applications.
- **Data Analytics Using Power BI Workshop – Tech Tip 24 (2026):** Successfully completed a beginner-level workshop on Data Analytics using Power BI with an end-to-end project.
